

## **6/27 Five Points Fitness Amended Reopening Schedule**

Dear Five Points Members:

In response to the recent uptick in COVID-19 case activity in the Bay Area the Marin County Public Health authorities today announced the June 29 reopening schedule for gyms and some other businesses (e.g., hotels and some personal services) will be delayed. We are naturally disappointed we will not be able to make our essential contribution to the health and well-being of our members in the immediate future. We hope the pause will not be a lengthy one and we remain committed to protecting the safety of our members when the day to reopen comes.

While we cannot currently offer our full range of fitness programs and use of the indoor facilities, outdoor personal and small group training is permitted to continue. We hope you will take a look at those opportunities. In addition, we continue to offer “virtual” training and other classes via Zoom. Please be reminded the days, times, and instructor information needed to register is posted on the website and available on our various social media platforms.

Regarding billings, all membership accounts will be automatically frozen for the month of July. No member will be charged for their normal monthly fee.

As we receive updates from County Health we will, of course, immediately notify you. In the meantime, thank you very, very much for your continued patience and support.
